Bachelor of Science in Psychobiology (Minor in Music History)

PROJECTS

Toy Tips
- Independently developed website using MySQL, Express, React, and Node from legacy code.
- Led communication and provided client with consistent and timely updates throughout the project.
- Delivered project to client satisfaction within agreed upon timeline.

The Beer Book
- Designed front-end and developed mobile responsiveness using React and React Bootstrap.
- Conducted back-end API research and implemented endpoint calls using Node and Express.
- Deployed project with Heroku with the help of mLab MongoDB add-on.
- Led effort to recover deleted repository and migrate depreciated code from mLab to MongoDB Atlas.

Covid-19 Tracker
- Used HTML/CSS and Bulma CSS framework to create the front-end general page layout.
- Incorporated endpoints from back-end to dynamically generate data tables with MySQL/Sequelize ORM.
- Implemented agile methodologies to lead the team in weekly stand-up meetings.

In-or-Out
- Implemented APIs and custom Google Map functionality using jQuery.
- Led and organized team workload using Slack and GitHub to manage tasks through weekly sprints.
- Developed a proxy server to handle third-party API calls not natively supported by CORS.

EXPERIENCE

Laboratory Supervisor | Technologist | CS Associate   2014-Present
Ivigen, LLC / Igenomix, LLC   Los Angeles, CA
- Managed two employees and led daily meetings to plan work allocation, address questions, and ensure progress on assigned tasks.
- Performed daily quality assurance checks for accuracy and consistency on all patient reports.
- Independently improved established processes company-wide by developing multiple new case management tools using Excel and VBA.
- Led bi-weekly cross-departmental standup meetings as regional laboratory liaison to provide updates and discuss issues in procedures.
- Coordinated prioritization of laboratory projects across teams to ensure time-effective processing of client deliverables.
- Main person of contact for priority overdue reports. Established clear channels of communication between company and clients to set and manage expectations for overdue deliverables.
